

**INDUSTRY NOTICE**  
**Australian Rule of Racing - AR.80E**

**DEFERMENT**

Racing Australia has previously advised that an amended AR.80E dealing with Compounded Pharmaceuticals would be introduced on 1 August, 2015.

Racing Australia has received a number of submissions regarding the jurisdiction of the Australian Pesticides and Veterinary Medicines Authority (APVMA), especially matters related to dietary supplements and nutritional products.

In light of these representations, Racing Australia has deferred the commencement date of AR.80E to a later date to enable further consultation with stakeholders and consideration of the matters thereto.
